KEY PROJECT

CourseLab - Full-Stack E-Learning Platform with Payment Gateway

React.js, Laravel, MySQL, Razorpay, Tailwind CSS | September 2024 - Present
Live Demo: courselab-demo.vercel.app | **GitHub:** github.com/Mohammad-Zubair1/courselab

- Built production-ready Physics Wallah-style paid course platform with course purchasing, video streaming, quizzes, and certificates

- Developed responsive React.js frontend with Tailwind CSS achieving 90+ Google Lighthouse performance score through code splitting and lazy loading

- Engineered secure RESTful API backend using Laravel with Sanctum authentication for role-based access (Student, Instructor, Admin)

- Integrated Razorpay payment gateway with webhook verification for real-time payment processing

- Designed normalized MySQL database with optimized queries for users, courses, enrollments, and transactions

- Deployed frontend on Vercel and backend on Railway with CI/CD pipeline

- Completed end-to-end development as solo developer in 12 weeks
